# Westlaw<sup>®</sup> Canada Quick Reference Card Noting up Cases with KeyCite<sup>®</sup> Canada (using CriminalSource)

KeyCite Canada is a powerful citation service (derived from The Canadian Abridgment) available exclusively on Westlaw Canada. Use KeyCite Canada to note up cases, statutes, rules and regulations.

KeyCite Canada for cases includes the history of all reported Canadian cases back to 1867, plus judicial treatments of Canadian and foreign cases discussed in Canadian decisions that fall within the following coverage: selective coverage of reported cases prior to 1977, comprehensive coverage of reported cases since 1977, and comprehensive coverage of unreported cases since 1986.

*KeyCite Canada provides links to the direct appellate history of a case, positive and negative judicial treatments, authoritative secondary sources and precedents (court) documents.* 

# KeyCite Canada Status Flags

- A red flag warns that the case may not be good law; that the decision has been reversed, or has not been followed within the same jurisdiction or by the Supreme Court of Canada.
- A yellow flag warns that the decision has some negative history or treatment, but has not been reversed or overruled. It is also displayed if a treatment has been recently added, and has not yet been editorially analysed.
- A blue H indicates that the decision has some direct history but it is not known to be negative.
- A green C indicates that the decision has no direct history, but there are treating cases or other citing references to the decision.

# Accessing KeyCite Canada

It also includes negative and cautionary citing references, which are cases outside the direct appellate line that may have a negative impact on the precedential value of the case.

## Restricting Citing References (Limit KeyCite Display)

Westlaw Canada provides you with the ability to restrict a list of citing references to only those references that are important to you. You may use any combination of the following limits: Locate (search term), Jurisdiction, Date and Document Type.

Click the **Limit KeyCite Display** button located at the bottom of the **Citing References** page to retrieve KeyCite Limits.

The Locate page is retrieved automatically. Enter your search terms in the **Locate** box. Locate searches the full text of each cited document for your search terms. To select another limit, simply click the bullet beside the limit page you wish to retrieve. To limit by **Jurisdiction**, click the checkboxes beside the limits you would like to see. You may also limit by the date of the referring documents (such as the judgment date of cases, or the publication date of newsletters). In the **Date of Document** section, select a restriction from the *Date of Document* drop-down list or enter the desired date range in the **Before** and **After** fields. To restrict the citing references by the date they were added to Westlaw Canada, select a restriction from the *Date added after* drop-down list or enter a specific date. **Document Type** allows you to restrict your list either to cases (by court level) and secondary sources.

Click the **Apply** button when you are ready to apply the restrictions.
